Inge's Christmas Decor is one of the European market leaders in the field of glass Christmas decorations. One reason for this is the trend themes developed and implemented in the three collections INGE-GLAS® MANUFAKTUR, MAGIC by Inge and GOODZ by Inge. At Inge's Christmas Decor, good design corresponds to the passion for form and colour and the knowledge of what is technically feasible. With the current Christmas decoration trends, Inge's Christmas Decor notices contemporary themes and never loses respect for the material glass.

Discover the Christmas decoration trends of tomorrow

Every year, Inge's Christmas Decor develops extensive new trend collections, which are now presented.

- **Christmas Classics:** Classic Christmas colours in crimson and fir green combined with dark blue and black. Traditional Christmas motifs round out the festive mood.
- **Refreshed Memories:** Tradition reinterpreted. Vibrant red and rich green combined with white and silver accents create a cheerful atmosphere.
- **Timeless Luxury:** Elegant combination of brown and black, golden accents add glamour to the theme.
- **Natural Comfort:** Warm browns and lush greens bring the familiar feeling of the local woods into our homes. The animals and plants of the forest can be found in the decors and make the theme come alive.
- **Romantic Winter:** Delicate, wintry blue tones combined with soft pink tones to create a dreamy and romantic mood, complemented by floral art nouveau ornaments surrounded by golden accents.
- **Relaxed Silence:** Soft natural shades of cream and gray together with simple natural patterns provide coziness and relaxation, while black and green accents create a harmonious balance of warm and cold.
